

Constant Therapy

Getting started with Constant Therapy at home

Constant Therapy is an app for your smartphone or tablet that features exercises you can do at home to help with cognitive, speech, and language skills.

- Gives you 24/7 access to clinically-proven exercises
- Tracks your progress
- Adapts to your abilities

Your clinician has recommended that you get started with the app. Here's what you need to know.

How to download and start your free trial:

1 Search for Constant Therapy in your device's app store

2 Download Constant Therapy

3 Did your clinician set you up with a username and password?

NO | Tap **"Create account"** and follow the steps to create your account.

YES | Tap **"Sign in"** and input your username and password to start your free trial.
